VI. Judicial work of the Tribunal

A. *Dispute concerning Delimitation of the Maritime Boundary between Bangladesh and Myanmar in the Bay of Bengal (Bangladesh/Myanmar)*

25. On 14 December 2009, proceedings were instituted before the Tribunal in relation to the delimitation of the maritime boundary in the Bay of Bengal between Bangladesh and Myanmar (case No. 16 of the list of cases of the Tribunal).

26. By a letter dated 13 December 2009, which was filed in the Registry of the Tribunal on 14 December 2009, the Minister of Foreign Affairs of Bangladesh notified the President of the Tribunal of declarations issued by Myanmar on 4 November and by Bangladesh on 12 December 2009, respectively. In its declaration of 4 November 2009, Myanmar stated that it "accepts the jurisdiction of the International Tribunal for the Law of the Sea for the settlement of dispute between the Union of Myanmar and the People's Republic of Bangladesh relating to

the delimitation of maritime boundary between the two countries in the Bay of Bengal". In its declaration of 12 December 2009, Bangladesh stated that it "accepts the jurisdiction of the International Tribunal for the Law of the Sea for the settlement of the dispute between the People's Republic of Bangladesh and the Union of Myanmar relating to the delimitation of their maritime boundary in the Bay of Bengal". Based on these declarations, the Minister of Foreign Affairs of Bangladesh stated that "[g]iven Bangladesh's and Myanmar's mutual consent to the jurisdiction of the International Tribunal for the Law of the Sea, and in accordance with the provisions of article 287, paragraph 4, of the United Nations Convention on the Law of the Sea, Bangladesh considers that your distinguished Tribunal is now the only forum for the resolution of the parties' dispute". The Minister further stated that "Bangladesh respectfully invites the International Tribunal for the Law of the Sea to exercise jurisdiction over the maritime boundary dispute between Bangladesh and Myanmar, which is the subject of Bangladesh's 8 October 2009 statement of claim". In the light of the agreement of the parties, as reflected in their respective declarations, to submit to the International Tribunal for the Law of the Sea for adjudication their dispute relating to the delimitation of their maritime boundary in the Bay of Bengal and taking into account the notification of Bangladesh filed on 14 December 2009, the case was entered in the list of cases as case No. 16.

27. On 25 and 26 January 2010, the President of the Tribunal held consultations with the representatives of the parties in order to ascertain their views with regard to questions of procedure.

28. On 28 January, the President adopted an order fixing 1 July 2010 as the time limit for the filing of the memorial by Bangladesh and 1 December 2010 as the time limit for the filing of the counter-memorial by Myanmar. By an order dated 17 March 2010, the Tribunal fixed 15 March 2011 as the time limit for the filing of the reply by Bangladesh and 1 July 2011 as the time limit for the filing of the rejoinder by Myanmar.

29. Both Bangladesh and Myanmar have nominated judges ad hoc pursuant to article 17 of the Statute of the Tribunal and article 8 of the Rules of the Tribunal. Thomas Mensah was chosen as judge ad hoc by Bangladesh and Bernard Oxman was chosen as judge ad hoc by Myanmar.

B. *Responsibilities and Obligations of States Sponsoring Persons and Entities with Respect to Activities in the Area (request for advisory opinion submitted to the Seabed Disputes Chamber)*

30. On 6 May 2010, the Council of the International Seabed Authority (the "Authority") adopted decision ISBA/16/C/13 in which, in accordance with article 191 of the United Nations Convention on the Law of the Sea, it requested the Seabed Disputes Chamber of the Tribunal to render an advisory opinion on the following questions:

(a) What are the legal responsibilities and obligations of States parties to the Convention with respect to the sponsorship of activities in the Area in accordance with the Convention, in particular Part XI, and the 1994 Agreement relating to the Implementation of Part XI of the United Nations Convention on the Law of the Sea of 10 December 1982?

(b) What is the extent of liability of a State party for any failure to comply with the provisions of the Convention, in particular Part XI, and the 1994 Agreement, by an entity which it has sponsored under article 153, paragraph 2 (b), of the Convention?

(c) What are the necessary and appropriate measures that a sponsoring State must take in order to fulfil its responsibility under the Convention, in particular article 139 and annex III, and the 1994 Agreement?

31. The events that led to the request are as follows: On 10 April 2008, the Authority received two applications for approval of a plan of work for exploration in the areas reserved for the conduct of activities by the Authority through the enterprise or in association with developing States pursuant to annex III, article 8, to the Convention. These applications were submitted by Nauru Ocean Resources Inc. (sponsored by Nauru) and Tonga Offshore Mining Ltd. (sponsored by Tonga). Their consideration by the Legal and Technical Commission of the Authority was subsequently postponed at the request of the applicants. On 1 March 2010, Nauru transmitted to the Secretary-General of the Authority a proposal (see ISBA/16/C/6), to seek an advisory opinion from the Chamber on a number of specific questions regarding the responsibility and liability of sponsoring States. That proposal was included in the agenda for the sixteenth session of the Council of the Authority, and intensive discussions were held at the 155th, 160th and 161st meetings. The Council decided not to adopt the proposal as formulated by Nauru. In response to the wishes expressed by many participants in the debate, the Council decided to request an advisory opinion on three more abstract but concise questions. These questions were formulated in decision ISBA/16/C/13, adopted by the Council at its 161st meeting on 6 May 2010.

32. The request for an advisory opinion was transmitted by a letter dated 11 May 2010 from the Secretary-General of the International Seabed Authority addressed to the President of the Seabed Disputes Chamber. The request was filed with the Registry on 14 May 2010. Subsequently, in accordance with article 131 of the Rules, the Authority submitted a dossier to the Chamber containing documents, decisions and other material of the Authority as well as international instruments and other material likely to throw light on the three legal questions on which the advisory opinion of the Seabed Disputes Chamber was sought. The dossier was posted on the website of the Tribunal.

33. On 18 May 2010, the President of the Seabed Disputes Chamber adopted an order fixing 9 August 2010 as the time limit for the presentation of written statements and 14 September 2010 as the date for the opening of the oral proceedings. The time limit was extended to 19 August 2010 by an order of the President of the Chamber dated 28 July 2010.

34. Twelve States parties to the Convention (Australia, Chile, China, Germany, Republic of Korea, Mexico, Nauru, Netherlands, Philippines, Romania, Russian Federation and United Kingdom of Great Britain and Northern Ireland), the International Seabed Authority, the Interoceanmetal Joint Organization and the International Union for Conservation of Nature filed written statements within the time limit. The United Nations Environment Programme filed a statement after the time limit. In addition, a joint statement by two international non-governmental organizations (Greenpeace International and WWF (World Wide Fund for Nature/World Wildlife Fund)) was submitted to the Chamber, together with a

petition to intervene in the proceedings as amicus curiae. Pursuant to a decision of the Chamber, the joint statement was not considered as part of the documentation in the case. All of the statements were posted on the website of the Tribunal.

35. Prior to the opening of the hearing, the Chamber met for initial deliberations on 10, 13 and 14 September 2010.

36. During the hearing held from 14 to 16 September 2010, nine States parties (Argentina, Chile, Fiji, Germany, Mexico, Nauru, Netherlands, Russian Federation and United Kingdom), the International Seabed Authority, the Intergovernmental Oceanographic Commission of the United Nations Educational, Scientific and Cultural Organization, and the International Union for Conservation of Nature presented oral statements to the Seabed Disputes Chamber.

37. The Chamber scheduled the delivery of the advisory opinion for 1 February 2011. The decision will be reported in the annual report of the Tribunal for 2011.

C. *The* M/V Louisa *case (Saint Vincent and the Grenadines v. Spain)*

38. On 24 November 2010, Saint Vincent and the Grenadines instituted proceedings before the Tribunal against Spain in a dispute concerning the arrest of M/V Louisa. The case was entered into the Tribunal's list of cases as case No. 18. The application instituting proceedings contained a request for the prescription of provisional measures under article 290, paragraph 1, of the Convention.

39. The M/V Louisa, flying the flag of Saint Vincent and the Grenadines, was arrested by the Spanish authorities on 1 February 2006 and has been held since then. According to the applicant, the M/V Louisa was involved in conducting sonar and cesium magnetic surveys of the sea floor of the Bay of Cadiz to locate and record indications of oil and methane gas. The applicant stated that the vessel was arrested for alleged violations of Spain's historical patrimony or marine environment laws, that various members of the crew were arrested but subsequently released and that the vessel was being held without bond in the port of El Puerto de Santa María. The applicant maintained that the vessel was involved in scientific research with a valid permit from the coastal State. The applicant claimed that Spain had violated articles 73, 87, 226, 245 and 303 of the United Nations Convention on the Law of the Sea and requested the Tribunal to award damages in the amount of "not less than $10,000,000".

40. The application instituting proceedings before the Tribunal contained a request for provisional measures under article 290, paragraph 1, of the Convention, in which the Tribunal was requested, inter alia, to order the respondent to release the M/V Louisa and return the property seized.

41. On 8 December 2010, Spain filed a statement in response in which it maintained, inter alia, that the vessel had been arrested in the course of criminal proceedings for alleged violation of laws relating to the Spanish historical patrimony, and requested the Tribunal to reject the provisional measures requested by the applicant.

42. By an order dated 30 November 2010, the President fixed 10 December 2010 as the date for the opening of the hearing.

43. Prior to the opening of the hearing, the Tribunal held initial deliberations on 9 December 2010.

44. Oral statements were presented at four public sittings held on 10 and 11 December 2010.

45. On 23 December 2010, the Tribunal delivered its order concerning the request for provisional measures. The Tribunal found that it had prima facie jurisdiction over the dispute.

46. The Tribunal refrained, however, from prescribing provisional measures, holding that "the circumstances, as they now present themselves to the Tribunal, are not such as to require the exercise of its powers to prescribe provisional measures under article 290, paragraph 1, of the Convention". In particular, the Tribunal did not find that, in the circumstances of the case, there was a real and imminent risk that irreparable prejudice might be caused to the rights of the parties so as to warrant the prescription of the provisional measures requested by Saint Vincent and the Grenadines.

47. The Tribunal noted the applicant's contention that "there is a definite threat to the environment by leaving this ship docked in El Puerto de Santa María for any significant additional time". In this respect, the Tribunal placed on record the assurances given by Spain that "the Port authorities are continuously monitoring the situation, paying special attention to the fuel still loaded in the vessel and the oil spread in the different conduits and pipes on board" and that "[t]he Capitanía Marítima of Cadiz has an updated protocol for reacting against threats of any kind of environmental accident within the port of El Puerto de Santa María and the Bay of Cadiz".

48. The decision of the Tribunal was taken by 17 votes to 4. One judge appended a separate opinion and four judges appended dissenting opinions to the decision.

This regulation provides that:

> The paramount consideration in the appointment, transfer or promotion of the staff shall be the necessity for securing the highest standards of efficiency, competence and integrity. Due regard shall be paid to the importance of recruiting the staff on as wide a geographical basis as possible.

Taking into account the small number of staff in the Registry of the Tribunal, a flexible regional approach has been followed in this regard.

D. Staff Pension Committee

95. Pursuant to the proposal of the Tribunal, the sixteenth Meeting of States Parties had decided that a staff pension committee should be established with the following composition: (a) one member and one alternate member to be chosen by the Meeting; (b) one member and one alternate member to be appointed by the Registrar; and (c) one member and one alternate member to be elected by the staff. In 2010, participants attended lectures on topical issues related to the law of the sea and maritime law, and training courses on negotiation and delimitation. They also visited institutions working in the fields of law of the sea, maritime law and dispute settlement, including the International Court of Justice, the International Maritime Organization, the International Oil Pollution Compensation Funds and the International Hydrographic Bureau.
